Table S3 Potential intra-specific and inter-specific infections that may be contracted through predation or at point food sources.

| Species | Infection | Reference |
|--|---|--|
| Pine Marten (<i>Martes martes</i>) | Adenovirus | Walker et al. (2017) |
| | Paramyxovirus | van den Brand et al. (2012) |
| Brown rat (<i>Rattus norvegicus</i>) | Retrovirus (Neoplasia) | Stocking and Kozac (2008), Simpson et al. (2013) |
| | Cowpox | Martina et al. (2006) |
| Field Vole (<i>Microtus agrestis</i>) | Cowpox | Bennett et al. (1997) |
| Bank Vole (<i>Myodes glareolus</i>) | Cowpox | Bennett et al. (1997) |
| Wood mouse (<i>Apodemus sylvaticus</i>) | Adenovirus | Greenwood and Sanchez (2002), Everest et al. (2012b, 2013, 2014) |
| | Hantavirus | Greenwood and Sanchez (2002) |
| | Rotavirus | Greenwood and Sanchez (2002), Everest et al. (2009b) Everest et al. (2011) |
| | Retrovirus (Neoplasia) | Stocking and Kozac (2008), Simpson et al. (2013) |
| | Herpesvirus | Greenwood and Sanchez (2002) |
| | Cowpox | Bennett et al. (1997); Obon et al. (2011), Himsworth et al. (2013) |
| Red squirrel (<i>Sciurus vulgaris</i>) | SQPV Orthopoxvirus Adenovirus Rotavirus Paramyxovirus | Rushton et al. (2006), Obon et al. (2011); Himsworth et al. (2013) Everest et al. (2014) Everest et al. (2009a, 2011) Brooks et al. (2014) |
| Grey squirrel (<i>Sciurus carolinensis</i>) | SQPV Adenovirus Rotavirus Paramyxovirus | Duff et al. (1996) Bruemmer et al. (2010) Everest et al. (2009b) Greenwood and Sanchez (2002) Brooks et al. (2014) |
