

Table S5

Root values for the variables of the Canonical Analyses estimated by cranio-mandibular measurements and the eigenvalues of each root. The gray cells indicate the most discriminating variables in the root 1 and 2.

	Root 1	Root 2	Root 3	Root 4	Root 5
RL	-1.005	0.060	-2.004	-0.600	0.293
